

## Summer Institute - The Future of Education

### WHO

Administrators, teachers, board of education members and anyone interested in preparing students for success in the 21st century' global and technology based economy. Teams of three or more educators are encouraged.

### WHAT

#### 21st Century Summer Institute - The Future of Education —

Participants will review the Partnership for 21st Century Skills framework. Teams will identify learning outcomes and develop rubrics to assess 21st century skills. Participants will then create or further a plan for a pilot project in their school to implement the learning outcomes. The program is inspired by the Tech Valley High School model.

**KEYNOTE SPEAKER:** John Cavalier, one of the founders of Tech Valley High School and former CEO of MapInfo, will discuss the future of the region's high tech industry that will drive the need to change the way students are educated.

#### Fees:

- Free to Questar III and Capital Region BOCES component schools.
- Non-component school personnel are encouraged to register in teams of three or more where a package rate of \$75-per-person is available. A \$100 fee for individuals will be charged for those not taking part in a package deal.
